Living Our Values

At Berlin Gardens, our first goal is to bring honor and glory to our creator, God, in everything we do. We do this by manufacturing the highest quality products, delivering our products on time and going beyond your expectations with our customer service.

All of this starts by living by our Core Values of honesty, efficiency, attitude, respect and trust. We not only say this, but we believe it.

We hope our products help you *take life outdoors*™.

LIVING OUR VALUES

The Berlin Gardens Difference

OUR PROCESS

Located in Ohio’s Amish country, Berlin Gardens pairs advanced machinery with traditional methods and skills handed down through generations.

SERVICE

Making the customer happy isn’t just something else we do – it’s the foundation upon which everything else is built.

QUALITY

To us, quality means consistency. To the customer, this means holes line up for easy assembly, all components are hand-routed for exceptional smoothness and little details are not missed.

LEAD TIME

Our lead time is typically shorter than most of our competitors. Even during peak season, we deliver in a timely manner.

DESIGN

From hidden fasteners to sleeker-lined chairs, we’re constantly improving our design.
The Best Furniture Uses the Best Materials

**POLY TUF™**

**WHY PICK POLY?**
Berlin Gardens uses only the highest grade of poly lumber, also known as polyethylene or HDPE.

Our premium poly offers:
- Smooth feel
- Dense material that’s more durable
- No cracking, splitting or bacterial growth
- Virtually no maintenance
- No affects from salt spray for seaside living
- Color that goes through the material (*not a coating*) that’s UV stabilized and resists fading

*This product is made with PolyTuf™ Recycled Plastic Lumber manufactured by Tangent, which is third-party certified by GreenCircle Certified for Recycled Content. [www.tangentusa.com/GCC](http://www.tangentusa.com/GCC)*

**FASTENERS**
Our fasteners are made of chrome-plated stainless steel. Used widely in the salt-water marine industry, these fasteners resist corrosion better than typical grades of stainless steel.

**COATED PROTECTION**
We have minimal visible aluminum components on our furniture. Those that are visible are powder-coated to increase both beauty and durability.

**DURABILITY**
We use welded aluminum frames under tabletops, heat-bended curved components and thicker material for support pieces. New products undergo extensive strength testing to ensure the strongest, longest-lasting furniture possible.
POLY FURNITURE RECYCLED CONTENT COMMITMENT

Have you ever wondered how Berlin Gardens poly furniture is made? Many of our customers are unaware that our furniture consists of 95 percent recycled content, with the majority coming from post-consumer milk bottles collected in community recycling programs. This is an overview of how a milk bottle is recycled and given new life as an Adirondack chair, which will last a lifetime.

Every milk bottle is ground, washed, melted and cooled to produce purified plastic pellets, which are tested to maintain the highest quality control standards.

The pellets move to a plastic extruder at Tangent where they are remelted and shaped into precision-cut plastic lumber.

Sorting ensures that only the highest quality plastics continue through the recycling process.

PolyTuf™ is the trademarked name for the recycled plastic lumber manufactured by Tangent for Berlin Gardens.
Clean design. Timeless appeal. Meet our new Mayhew Collection, a stylish blend of east-coast charm and modern-day durability.

Berlin Gardens’ line of outdoor furniture and fabric cleaners give maximum results with minimal effort. Each product cleans safely yet effectively.

**Furniture Care and Maintenance**

Poly furniture is made from high-density polyethylene (HDPE), a recyclable plastic that never needs to be painted or stained. It will not rot or splinter, and it contains an added UV protective agent to resist fading. Poly furniture is not affected by most corrosive substances, and will not promote bacterial growth.

To maintain the beauty of your furniture, use Berlin Gardens cleaners or clean regularly with nonabrasive soap and water. While most colors need to be cleaned a few times per year, certain colors such as white (but not limited to this color) need to be cleaned more frequently in order to maintain the original beauty. In extreme situations, and with colors such as white, spray the furniture thoroughly with a nonabrasive cleaner then scrub the furniture using a soft bristle brush and rinse off with warm, clean water. If needed, spray the furniture with nonabrasive cleaner and wash it using a high-pressure washer. Do not place the tip of your pressure washer closer than 8”-12” from the furniture or it will tear into the material.

Do not place flower pots or any items on furniture that will leave stains. Do not place hot items directly onto furniture to avoid melting.

All fasteners on furniture manufactured by Berlin Gardens are stainless steel with most fasteners being chrome-plated stainless steel. Chrome-plated stainless steel is one of the most corrosive-resistant fasteners on the market. However, in extreme conditions such as coastal areas, while chrome-plated stainless steel will be less likely to rust, it is still recommended to regularly rinse it with fresh water to ensure the longevity of your furniture and fasteners.

If properly cared for, you will be able to relax in your fine piece of poly furniture for many years!
